

LIMISAN™

Painless adhesive bandage remover

For quick and easy removal of all adhesive bandages, tapes, and sticky residues

WHAT IS LIMISAN™?

Limisan™ is an easy-to-use spray for the immediate and painless removal of all adhesive bandages, including medical bandages, sports tapes, and patches, as well as sticky residues. Limisan™ uses a mild, sting-free formula, suitable for children and adults, which dries quickly, permitting the re-application of bandages without delay.

HOW DOES LIMISAN™ WORK?

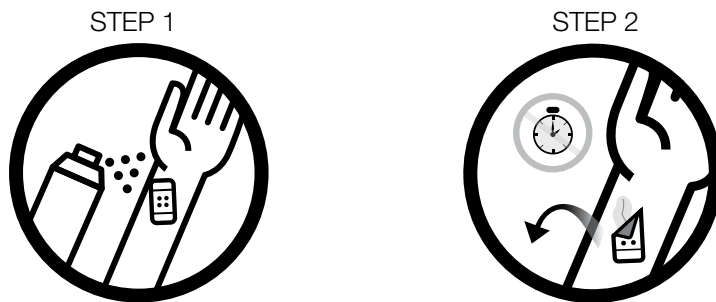

Limisan™ contains a blend of ingredients that quickly form a layer between the adhesive and the skin. This layer interrupts the adhesive bond, causing a total loss of adhesion and allowing the adhesive bandage to be gently lifted away. All the ingredients in Limisan™ evaporate quickly, leaving no residue, and enable a new adhesive bandage to be applied immediately.

HOW TO USE LIMISAN™ TO REMOVE ADHESIVE BANDAGES?

STEP 1 › Spray Limisan™ around the edges and on top of the adhesive bandage(s).

STEP 2 › No waiting required. Peel the bandage away from the skin. Spray additional Limisan™, as needed.

NOTE: Limisan™ dries quickly and will not affect the adhesion of subsequent adhesive bandages.

HOW TO USE LIMISAN™ TO REMOVE STICKY RESIDUES?

1. Spray Limisan™ on a tissue.
2. Wipe the residue with the moistened tissue.

HOW TO USE LIMISAN™ AROUND THE EYES?

1. Spray Limisan™ into the cap of a bottle or a shallow dish.
2. Dip a cotton swab in the product.
3. Apply the wet cotton swab on the adhesive until it looks wet and gently remove the adhesive from the skin.

NOTE: Take care to avoid getting Limisan™ into the eyes.

INGREDIENTS

Disiloxane, butane, propane, isopropyl alcohol, bisabolol, spearmint.

CONTENTS

34 g spray, 40 applications.

ADVANTAGES OF LIMISAN™

- Pain free
- Easy spray application
- No waiting, works in seconds
- Dermatologically tested
- Non-irritant, no sting
- Suitable for children and adults
- Dries quickly, permits rapid re-application of bandage(s)
